Profile updated June 30, 2010

August 3, 2011

To whom it may concern:

I have had the opportunity to coach David Barwinczak from February through June of 2011. After a few training sessions I made him a captain without any hesitation. David has a superb work rate and is an extremely determined player. His teammates look up to him tremendously and his leadership by example is contagious. I have always been able to count on David to be a perfect bridge between myself and the rest of the players.

Even though David started playing soccer much later in life, he has continuously improved his technical ability, while always possessing the speed to track down opponents. His greatest strengths are making crucial defensive interceptions, cleaning up dangerous moments, and his speed and quickness. I believe with the right fit he has the personality and athleticism to do very well at the collegiate level.

I would be happy to discuss further David's qualities as a person and as a player upon request.
